

Thank you for your patience in this extended period!

The worldwide COVID19 pandemic directly impacted on Plena Curae's ability to get new product manufactured in a timely way.

In hind sight, we might have made different choices, but the end is in view, finally. Our product has been encapsulated, will be packed today or tomorrow and will ship out as soon as humanly possible.

If there are no transport disruptions, we should have all product, including the new large breed size of Curcumin & Boswellia, with 120 capsules, available for order fulfillment by the end of next week or the beginning of the next. That is, sometime between April 16 and April 21. As soon as I get a date, I will pass it on to you all.

Cheers,

Karen

PS Check out the Medical Ozone resource page that Dr. Margo Roman and I have created to help get the word out that O3 can truly impact COVID19 outcomes!
